

The Coral Tree

Anju Agarwal | Amit Bhagwat

Boutique Interior Design and Styling Services

About Us

The Coral Tree was born to address a very specific gap in interior design solutions and services. Homes and offices today merely reflect the ongoing trends in the market and say little about the people who inhabit them. Have you noticed how most professionally designed spaces don't look very different from each other? Well, a majority of interior design firms juggle multiple projects at a time. They use a common set of suppliers and materials across various projects. They simply do not have the bandwidth to spend enough time with you to understand your personal tastes and preferences and execute your distinct aesthetic vision. In the end, most people end up with a product, rather than a space reflects their personality.

The Coral Tree seeks to break this formulaic approach to interior design and styling with its highly personalized boutique interior design and styling services. We bring to you exceptionally great taste with sound technical prowess to create a potent blend of form, functionality and flair. The best part? We bring the same level of dedication and commitment to every site, residential or commercial, big or small, all the while being extremely mindful of your budget and time constraints.

The Coral Tree only takes on a limited number of projects at any given point in time. Our small, yet incredibly hands-on team remains available to you 24x7. We take it upon ourselves to scour the length and breadth of the country and beyond to bring to you exclusive and one-of-a-kind design pieces and solutions. Our suppliers are handpicked in complete consultation with the client to meet the specific needs and challenges of the project. Most importantly, our top priority remains our commitment to taking your unique tastes, preferences, personality traits and lifestyle into account, to create a space in which you will look forward to spending your time every day.

At The Coral Tree, we want to bring the focus back to the people who are meant to inhabit a space. We do not believe in trends and pre-established formulas. We strive to take away all the hassles of setting up a home or an office space to make the process truly special and enjoyable- just how it's supposed to be!

Our Projects

Take a look at the images of some of our previous and ongoing residential and commercial projects.

We will be happy to provide client references on request!
